

# Study Abroad

Salisbury  
UNIVERSITY

Make the world your classroom. To say that studying abroad broadens your horizons doesn't even begin to describe this opportunity. If you're ready for new languages, new people and new challenges, then you're ready to study abroad. Let's see the world together!

### STUDY ABROAD HIGHLIGHTS

- **Career Booster:** Our students are joining the international workforce through the Global Internship Program, offered in nine principle cities on three continents and student teaching internships in New Zealand.
- **Short-Term Programs:** SU's faculty-led Global Seminars take you around the globe during winter and summer sessions to study topics ranging from Old Norse literature in Iceland to biodiversity in Costa Rica in two to four weeks.
- **Don't Take Our Word for It:** Talk to students who have been there! SU's Global Ambassadors are students who have studied abroad and are excited to share their experiences with you; look for them in the Commons.
- **It's Affordable:** With many funding resources, it is very possible that studying abroad for a semester may cost the same as studying on main campus in Salisbury.

### Current Salisbury Abroad Semester Programs

- Australia
