## Education/Certification

### Associate of Applied Science in Internet Information Systems Technology, 2006

Twin Peaks Technical College, Twin Peaks, CA

**Relevant Courses Completed:** Extensive programming courses, server design, database management, network security, Internet imaging

- ☑ **Microsoft Certified Database Administrator (MCDBA)**

## Work Experience

Please see [web portfolio](#) for examples of my work.

### National Geographic Information Center, Boise, ID

#### Assistant Webmaster, Summer 2004 and Summer 2005

Updated the main databases and maintained a public Internet interface using Macromedia Dreamweaver and Active Server Pages.NET (ASP.NET). Created and more efficiently redesigned several branched sites, including photo galleries, statistics tables, and PDF document posting areas and archives. Produced geologic prediction analysis graphs using information gathered from remote automated geology stations. Designed a web interface for LAN bandwidth usage tracking, improving network efficiency by 45 percent.

- ☑ *On-the-Spot Award* received for extra effort, *Geographic Festival, 2005*

### Perez Construction and Development, Boise, ID

#### Web Design Project, Summer 2005

Created entire web site for a small business in construction and land development training, which included setup, design, site registration, and site hosting.
