

## **Mentee Request for General Networking/Advice**

Hello,

I am currently a student at Salisbury University majoring in -----and found your mentor profile in my school's mentor program located on eRecruiting. By reading your profile on the mentor network, it is quite evident that you have a vast amount of experience in your field and the career I have chosen to pursue. I would truly appreciate the opportunity to conduct an information interview to hear your first-hand insight and perspective about your career and any career advice you can offer me.

Because of your experience, I know your input and guidance as a mentor would be valuable and beneficial to me as I try to make important career decisions. I know how busy you are and understand how important your time is and that is why I ask for only as much time as you can afford. I will call you this week to setup an information interview appointment to discuss my career options. Thank you in advance for your consideration and time.

Best regards,

Your name
