Focus Summary-December, 2008-July, 2009
(July 23, 2009)
This report is a summary of the Focus Users. The users are freshmen, sophomores, juniors, seniors, grad students, alumni and other students who have signed up with someone in the Career Services Office to take this assessment. Each person taking Focus must have an account created for them and the system must be explained to them prior to use. It is highly recommended that students come in the Career Center for a follow-up career counseling session to clarify their results.

Dates Data Collected: December 2008 and Spring/Part of Summer 2009
