Accounting, Business Administration, Economics, Marketing

Students not majoring in accounting, business administration or management information systems may minor in business administration or marketing management. Students not majoring in accounting may minor in accounting. Students not majoring in economics may minor in economics. Minors in accounting, business administration, economics and marketing management consist of 18 credits, 15 of which cannot be used to satisfy General Education requirements.

For each minor, a minimum of nine credits must be taken at Salisbury University. Each course in the minor must be completed with grades of C or higher.

Accounting

This program provides students with a basic core accounting background. For non-accounting business majors, the minor would provide excellent credentials for those seeking careers in organizations or occupations where a background in accounting and budget administration is important. In addition, the minor could be utilized by non-accounting business majors to fulfill the necessary accounting prerequisites for entry into the accounting track of the M.B.A. program at SU. By selecting the appropriate accounting electives in the minor and in the M.B.A. program, these students would satisfy both the current course requirements and the current credit hour requirements established by the state of Maryland to sit for the CPA exam. The minor would also be useful for non-accounting majors seeking other prestigious certifications such as the CFM (Certificate in Financial Management).

The minor in accounting could be utilized by non-business majors in establishing credentials for their careers. The minor in accounting consists of 18 credits, any of which may be used to fulfill other Perdue School requirements. Nine of the 18 credits must be completed at SU. All courses in the minor must be completed with a C or better. Only those courses listed as fulfilling the minor are accepted.
