

Name: _____

ID: _____

Date: _____

The Department of Chemistry offers a minor in chemistry. A chemistry minor is available for students in other majors seeking official recognition for courses taken in chemistry. Specific requirements for the minor are as follows:

Complete the following core courses:

CHEM 121	General Chemistry I	4 credits
CHEM 122	General Chemistry II (prereq: CHEM 121)	4 credits
CHEM 221	Organic Chemistry I (prereq: CHEM 122)	4 credits
CHEM 222	Organic Chemistry II (prereq: CHEM 221)	4 credits

PLUS at least three credit hours in Chemistry from the 300 or 400 level.

CHEM 3XX or 4XX	_____	___ credits
CHEM 3XX or 4XX	_____	___ credits
CHEM 3XX or 4XX	_____	___ credits

A student seeking the minor in chemistry must fulfill the above requirements with grades of C or better in all courses.

At least 15 credits of the minor must consist of courses which are not used to satisfy general education requirements and at least nine of these hours must be credits earned at SU.
