

TurningPoint Quick Sheet: Creating a Picture Slide

A. Create an Interactive Slide with the following set of question and answers:

Which of the following animals is not four-leg?

1. Cats
2. Horses
3. Spiders
4. Mice

B. On PowerPoint toolbar, click Insert → Picture → Clip Art...

C. Type in the keyword “cat” to search for clip arts. Click to select a clipart to insert it into the slide.

D. Repeat step C for “horse”, “spider”, and “mouse”. Resize the pictures if necessary.

Which of the following animals is not four-leg?

1. Cats
2. Horses
3. Spiders
4. Mice

Animal	Percentage
Cats	25%
Horses	25%
Spiders	25%
Mice	25%

E. On the slide, click to select the clipart for “cat”, and then hold down the **Control key** to select images for “horse”, “spider”, and “mouse”, in that order.

F. On the TurningPoint toolbar, click on the **Convert to Picture Slide** button (**Hint:** It’s the one that looks like

an artist's palette)

G. A picture slide is then created. Notice that the answers in text are replaced by the pictures in the slide, and yet on the chart, you can still see the text answers.
