

DEAR DONORS AND FRIENDS,

It is our pleasure to extend thanks and good wishes to everyone who continues to help make Salisbury University *A Maryland University of National Distinction*. Without your continued dedication and support, we simply could not accomplish many of the amazing things we are doing. Thank you for investing in our future.

We hope you will enjoy perusing the pages that follow. Once again, we have opted to provide this report to you in an electronic format. The feedback received after sharing this document in such a format last year was overwhelmingly positive. It is our intent that you will find the stories and information user friendly, insightful and exciting.

As you know, the volatility of the economy continues to pose challenges for everyone. We are pleased that donor loyalty has prevailed. While we have missed a few short-term goals, we have made great strides toward long-term success. We continue to move closer to our ultimate campaign goal of *Taking Excellence to New Heights* and are seeing results University wide.

Great progress is being made on the Perdue School of Business building, and the development of Sea Gull Square is visible from nearly every corner of campus. In addition to our noteworthy capital projects, we are excited to work with philanthropists to establish funds and planned gifts that support scholarships, cultural programming, athletics and more.

We salute and recognize Richard A. Givens, II for his outstanding leadership as SU Foundation, Inc. chairman (2008-2010). Rick's generous support continues to positively impact many areas of the campus and community life. We offer our deepest appreciation for his time, talents and philanthropic commitment.

On behalf of Salisbury University and the Salisbury University Foundation, Inc. please accept our thanks for your participation, support and investment. Your generosity has a significant impact on all that we do. We hope to see you in the coming months on campus or at any number of our events throughout the region and beyond.

Sincerely,

Janet Dudley-Eshbach, Ph.D.
President
Salisbury University
