

Respondus LockDown Browser is a secure browser for taking assessments in MyClasses. It prevents you from printing, copying, going to another website, or accessing other applications during an assessment. If a MyClasses assessment requires that Respondus LockDown Browser be used, you will not be able to take the assessment with a standard browser. Respondus LockDown Browser should only be used for taking MyClasses assessments. It should not be used in other areas of MyClasses.

Installing Respondus LockDown Browser

1. Log into MyClasses as you normally would, using Internet Explorer or Safari (for Macs).
2. Navigate to the course that has the assessment you are going to take.
3. Go to that assessment as you normally would. Click on the assessment you wish to take. You will now see a message on the screen that says "You must complete this assessment in the Respondus LockDown Browser"
