

If you receive an error message similar to the one below and have verified that you have entered your password correctly you will more than likely need to reset your password by visiting mypassword.salisbury.edu. Alternatively you can access the mypassword site by clicking the box highlighted below.

Students who need further assistance with their password can contact IT Helpdesk at (410) 677-5454.

The screenshot shows the MyClasses@SU login interface. At the top right, there are links for "Check Browser" and "Help". The main content area is divided into two columns. The left column contains the MyClasses@Salisbury University logo, a red error message stating "You have entered an incorrect user name or password.", a "Log In" section with input fields for "User name:" and "Password:", and an "OK" button. Below the login fields is a grey box with a red border containing the text: "Need Password Help? Use the My Password page to reset or change your password." and "Course List View course information for the current semester." A red arrow points from this box to the "Need Password Help?" text. The right column contains three informational sections: "About MyClasses at SU" (describing the system and enrollment), "Browser Check" (recommending a browser check), "Pop-up Blockers" (advising to turn off pop-up blockers), and "Java Certificate & Applet" (explaining security prompts). At the bottom of the page, a dark red banner contains the text: "Students who need further assistance - contact [IT Helpdesk](#) at (410) 677-5454".
