70 years of  
outstanding theatre  
See page 9

# welcome

## Eastern European Cultural Series

Eastern Europe is a region rich in history and tradition whose recent years have been marred by unrest, violence and war. Over the past decade West has met East as U.S. involvement has escalated and shed light on this beautiful yet troubled area. Through the fall cultural events series, SU too will explore the countries of Eastern Europe and the role cultural, economic and political events have played in the current life of those who call these countries home.

## Letter from the Director

As the SU Office of Cultural Affairs and Museum Programs embarks on a new semester of activities, it is with great pleasure that we offer, for the second time, "Panorama." I have received nothing but encouragement for this new publication that documents the diverse happenings on and around the University. All of the members included in this publication have worked very hard to offer quality affordable programming for students, faculty, staff and the greater regional community.

By incorporating all of these events into one comprehensive publication, we will hopefully attract new visitors and new supporters for our many organizations and programs. It is with great pride that we are able to present many regional, national and world-renowned performances, scholars and programs including the Chamber Orchestra Kremlin, the Chesapeake Wildfowl Expo, the Tamburitians, lectures, exhibits, poetry readings and many more. I hope all of our readers will take advantage of these excellent programs compiled in this convenient and informational publication. I hope I can visit with you when you join us at Salisbury University.

Kenneth Basile, Director

**Salisbury University offers a wealth of possibilities:**
