

# Overview

I am pleased to have the opportunity to meet with the Board of Regents and the University System of Maryland staff to share the successes and the challenges we experience at Salisbury University. Salisbury is proud of its many achievements which continue to build our reputation as *A Maryland University of National Distinction*. Some of these achievements are listed throughout this handout. We also face a number of challenges as we look to the future. Those have been documented here as well, and I will touch upon them in our meeting today.

Salisbury University has undertaken careful and aggressive planning in recent years, and implementation of those plans is underway.

It is my intention to underscore the significant accomplishments we have achieved here at SU with limited resources and, as importantly, the need for increased resources moving forward. That need has been recognized and acknowledged by the University System of Maryland.

*I urge the Board of Regents to ensure that steps are taken to implement the recommendations of the USM report on the funding of the comprehensive institutions, as well as structural adjustments that will correct SU's funding moving forward.*

Thank you for your time and consideration.

Sincerely,

Janet Dudley-Eshbach, Ph.D.  
President, Salisbury University
