Salisbury University Mission Statement

Salisbury University’s mission is to cultivate and sustain a superior, student-centered learning community where students, faculty and staff are viewed as both teachers and learners, and where a commitment to excellence permeates all aspects of University life. We recruit exceptional and diverse faculty, staff, undergraduate and graduate students and support them as they work together to reach the University's goals. Serving Maryland and the Mid-Atlantic region, we are concerned participants in responding to the educational, economic, cultural and social needs of our community and believe that service is a vital component of civic life. Our highest purpose is to empower our students with the knowledge, skills and core values that contribute to life-long learning and active citizenship in a democratic society and interdependent world. (1996)

VALUES

The core values of Salisbury University are excellence, student-centeredness, learning, community, civic engagement, and diversity. We believe these values must be lived and experienced as integral to everyday campus life so that students make the connection between what they learn and how they live. (1996)

VISION

Salisbury University will continue as a premier regional university that is recognized nationally for excellence by its peers and regionally for its commitment to model programs in civic engagement. Undergraduate research, service learning, international experiences, and co-curricular activities will continue to enrich the traditional academic curriculum and enable students to connect research to practice, theory to action. The University will provide graduates who will be recruited by the best employers and graduate schools, and who will contribute to the economic vitality of the State and the Nation. The University will continue to enhance the quality of life for its students, the State, and the region, and will explore opportunities to provide doctoral programs in areas of need. (MFR, 2001)
