You may have observed stress and other mental health concerns in students throughout the semester. As members of the campus community, it is everybody's responsibility to look out for those who may be in serious distress.

To address this concern, I ask you to take this online simulation that will assist you with approaching students you’re concerned about and referring them to support services on campus. I highly recommend that you take this course as soon as possible. I am confident you will find it highly engaging and worthwhile.
