- At least nine credits must be earned at SU.

Advisement for the minor is available from the Teacher Education Department.

MINOR REQUIREMENTS

- Required core science courses include two lab science courses from different prefix areas, an approved STEM elective or science course from a third prefix area, and a laboratory safety class.
- Take 3 additional courses from at least 2 disciplines, which may include science prefixes (i.e., BIOL, CHEM, ELED, ENVH, ENVR, GEOG/GEOL, PHYS [GEOG courses must be in physical geography or geography methodology, not human geography. For the purposes of the minor, GEOG and GEOL will be considered one discipline.]) and/or appropriate education prefix (e.g., appropriate ISED or ELED prefix topics courses with approval from the minor coordinator).
- At least 6 credits of the electives must be at the 200 level or above.
- Courses/prefixes shown are the preferred core courses at SU, but transfer courses can be substituted on the approval of the minor coordinator.
