CHAPTER ONE: INTRODUCTION

1. Purpose

This manual is intended to serve as an informative guide for preparation of theses, dissertations and scholarly projects at Salisbury University (SU). The general formatting requirements in this publication apply to all SU scholarly works. In regards to style, it is the student's responsibility to follow the specialized manual of scholarly style established by their program of study.

2. Policies

For information regarding graduate student policies, please refer to the most recent edition of the SU Catalog: <http://www.salisbury.edu/academics/catalog/>.

3. Academic Integrity

Integrity is a principle which permeates all the activities of the university and guides the behavior of faculty, students and staff at SU. The spirit of academic integrity denotes adherence to the precept that "one's work is one's own." The process by which integrity is upheld assumes clear communication of university expectations, standards, and policies and clear communication of students' and faculty's rights and responsibilities.

For information regarding academic integrity, please refer to the Student Academic Misconduct Policy: <http://www.salisbury.edu/provost/AcademicMisconductPolicy.html> .

4. Compliance

a. Human Subject Compliance (IRB)

The Salisbury University Institutional Review Board (IRB) is committed to protect the rights and welfare of human subjects who participate in research conducted by faculty, staff, and students of Salisbury University. The SU IRB follows the basic ethical principles of respect for persons, beneficence, and justice as set forth in the [Belmont Report](#). These principles are codified in [45 Code of Federal Regulations Part 46, subparts A-D - Protection of Human Subjects](#).

It is recommended that the students work with their advisor and explore publication requirements prior to declaring that their research does not require IRB review. The SU IRB suggests researchers always seek out IRB review for human subject related research. The SU IRB reserves the right to make the final determination as to which category is most appropriate.

For more information regarding policies, meeting dates and forms, please visit the SU IRB website: <http://www.salisbury.edu/gsr/research/compliance/irb/>.

b. Animal Subject Compliance (IACUC)

Salisbury University has a strong commitment to animal care and treatment. Quality animal care is critical to quality research outcomes and mandated by Federal animal welfare regulations. Administered through the Office of Graduate Studies and Research, the Animal Care Program is governed by SU's Institutional Animal Care and Use Committee (IACUC). The IACUC is responsible for interpreting the various animal welfare and humane use regulations and policies, and for establishing a set of guidelines governing the use of animals on campus. Thus, no animals may be used on the Salisbury University campus for research, teaching, or other purposes without prior approval of the IACUC. The Committee approval is based on the IACUC review of the investigator's submitted animal use protocol.

For more information regarding policies, meeting dates and forms, please visit the SU IACUC website: <http://www.salisbury.edu/gsr/research/compliance/iacuc/>

You are also responsible for submitting a signed “Completion/Defense Submission Form” which can be found online through the Office of Graduate Studies and Research:

<http://www.salisbury.edu/gsr/gradstudies/>. All manuscripts should be submitted to Jessica Scott in Holloway Hall, Room 267 for technical review.

Please refer to Appendix L for the Completion/Defense Submission Form.

2. Timeline

Deadline: Final projects should be submitted to the Office of Graduate Studies (OGS) for technical review at least one week prior the applicable commencement ceremony in December or May. It is expected that all corrections will be completed and resubmitted to OGS by 12pm on the day prior to your Commencement ceremony. As a reminder, there is a separate graduate ceremony in May. Please make sure you are familiar with ceremony dates. If corrections are not submitted, your degree conferral can be postponed.

3. Technical Review

Once your manuscript is submitted to the OGS, it will undergo a technical review. Please contact jlscott@salisbury.edu to make arrangements. Manuscripts may be delivered, mailed or emailed. Please be aware of your deadline when determining best method of delivery. Please DO NOT print product on your high-quality manuscript paper until your project has been approved for binding.

Reviews are done as quickly as possible and in the order in which projects are received. After the review, you will be notified of approval or requested corrections. Once you have completed any technical revisions (if necessary), please provide the final copies on manuscript paper with an original signature page included with each copy. Online students should consider deadlines when planning mailing and delivery time.

4. Submission for Binding

The Office of Graduate Studies will submit all final copies to Library Services for binding.

5. Binding

You must provide one copy for the library. This will be bound at no cost to the student. In addition, the Office of Graduate Studies and Research has agreed to cover binding costs for up to (4) departmental and/or personal copies. Any additional copies are \$15 and must be paid by the student or department. You will be contacted by the Scholarly Communications Library when they have been completed.

6. ProQuest

ProQuest is an electronic database which houses thesis and dissertations. Please consult with your Program Director or Manuscript Chair to determine whether submission to ProQuest is required. Having your work included in ProQuest does not affect the author's retention of copyright. There is no fee for a basic submission to ProQuest. There can be additional fees if you would like additional avenues of dissemination. Please consult <https://www.proquest.com/products-services/dissertations/proquest-dissertations-faq.html> for answers to additional questions.

7. SOAR

SOAR is a digital archive that provides public online access to the work of the faculty, staff, and students of Salisbury University. It is SU's contribution to the larger MD-SOAR pilot program funded by the University System of Maryland and Affiliated Institutions (USMAI) Library Consortium, which represents the collaborative efforts of 11 different higher education institutions within the state of Maryland.

Depositing work in SOAR@SU increases its global visibility and impact, provides rapid dissemination, and long-term preservation. It also can help meet the data management and open access requirements of research funding agencies. We encourage all students to submit their work to SOAR.
