Outstanding Student Research

Salisbury University's commitment to student research is evident in both the number and quality of the presentations at our annual student research conference. However, many of our students are being recognized for their work in off-campus settings. The following are highlights from Salisbury University students during the last year.

Student Publications

Celeste Reeb published "How Disney's "Hell Fire" Illuminates the Struggle of the Subconscious" in the *Artifice*, June 2014.

Michael G. Taylor and George Whitehead published "The measurement of attitudes toward abortion" in *Modern Psychological Studies*, Fall 2014.
