

Enabling Mobile Responses – Instructor

If allowed by the course instructor, students can use a web-enabled smart device such as a mobile phone, tablet or laptop as a response device (clicker).

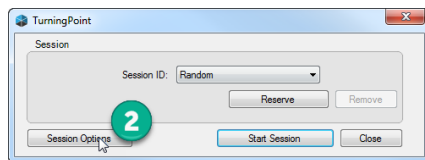

Instructor will need to provide students with Mobile Responses Session ID for them to participate, answer clicker questions and receive credit. Students must have a Turning Account and Subscription to be able to use their smart device as a clicker.

To start a Mobile Responses session and get a Session ID:

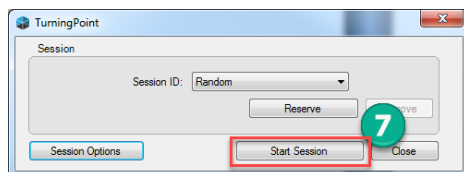

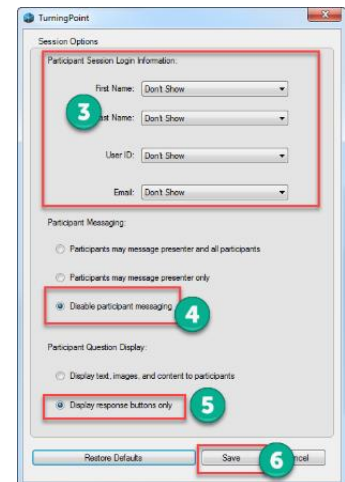

1. Before you start the Slide Show, click ResponseWare from the Polling group on the TURNINGPOINT ribbon in PowerPoint.

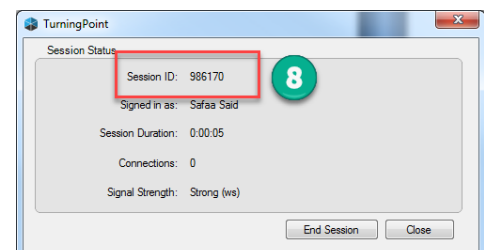

2. Click Session Options.

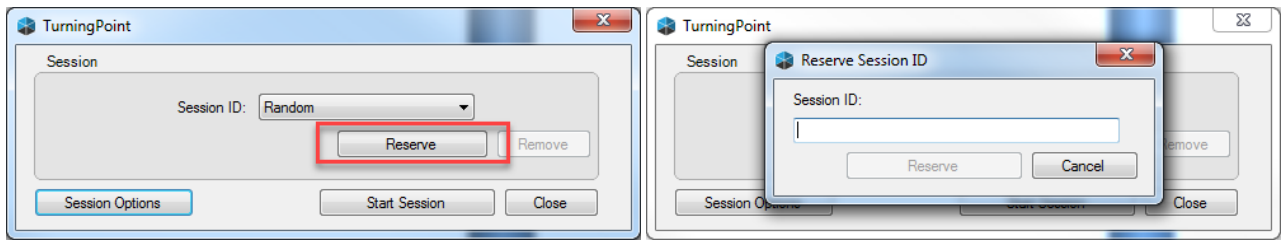

3. Under "Participant Session Login Information" select "Don't Show" for the First Name, Last Name, User ID, and Email
4. Under Participant Messaging, select the option to "Disable participant messaging"
5. Under Participant Question Display, select the option to "Display response buttons only"
6. Click Save
7. Click Start Session. If random is selected, a Session ID will be randomly generated.

8. Provide students with the Session ID six digit number

Reserving Session ID: Reserving a Session ID allows the course instructor to specify their own unique Session ID

- Click Reserve. The Reserve Session ID window opens.
 - Enter a unique Session ID in the session ID field.
Session IDs must be between 4 and 14 alpha or numeric characters, **but must contain at least one letter**; i.e. PSYCH101.
 - Provide the student with the unique session ID
9. Start the slide show and run the presentation
10. When done with the session, save the session*, close the presentation and click End Session
- *Refer to the instructions for "[Saving and Uploading Session Grades](#)".
