

Installing and Using the TurningPoint Desktop APP – Instructor

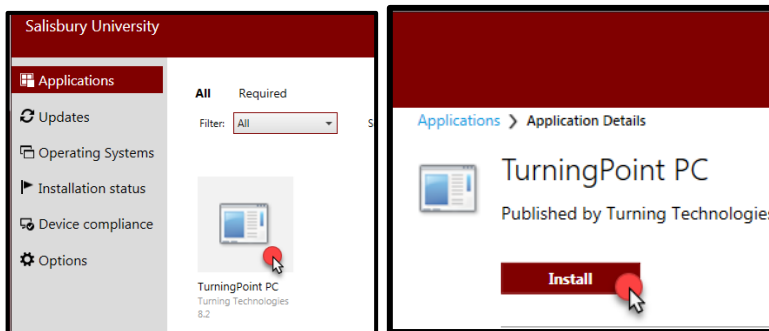

The TurningPoint (TP) desktop app is installed on all classroom computers. You can install the app on your office and/or personal computers.

To install the app on your office computer:

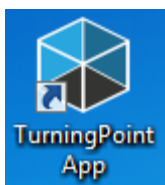

1. Start the Software Center from you campus computer
(Note: if you need assistance accessing the Software Center, please contact the IT Helpdesk 410-677-5454)
2. Type “TurningPoint” in the SEARCH text box and click Enter.

3. Click the TurningPoint PC and then click Install

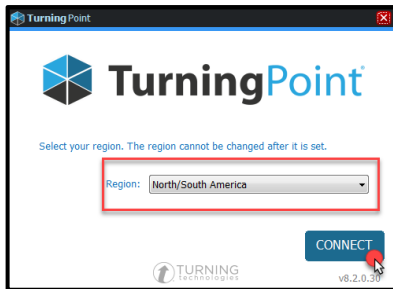

4. Once the installation process is complete, a TurningPoint App will appear on your computer desktop.
5. Double click the app icon to start TurningPoint.

Initial Access:

The first time you access TurningPoint you will be asked to select your region. The default selection is “North/South America.”

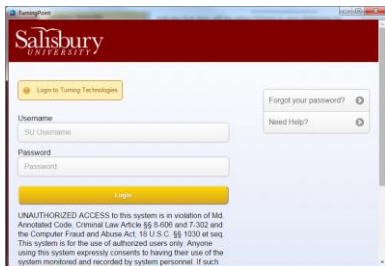

1. Click Connect.

2. Click Sign In.

3. Enter you SU Username and Password.

The TurningPoint Dashboard will display.
