PHYS 223	Physics II*	4 credits
POLITICAL SCIENCE		
POSC 110	American National Government	4 credits
PSYCHOLOGY		
PSYC 101	General Psychology	4 credits

Maroon color - High school graduation credit awarded

* Course has prerequisite or placement test

@ Must complete both courses to earn high school graduation credit

Meets fourth math course requirement in senior year

SU courses that align with those currently offered in Worcester County schools (highlighted above) will be listed on your high school transcript with the earned letter grade, thus contributing to your high school credit count and GPA. Those SU courses that do not match a current high school course will be noted as either pass/fail and will not impact your credit count or GPA. All courses taken for dual-enrollment credit and passed will be awarded college credits at SU and will be eligible for transfer.

Some dual enrollment courses are offered on site at Pocomoke, Snow Hill, Stephen Decatur, and Worcester Tech high schools. Contact your guidance counselor for more information!

DUAL ENROLLMENT ON THE SU CAMPUS

SAVE TIME & MONEY

Worcester County high school juniors and seniors can enroll in more than 50 courses on SU's campus and earn both high school and college credit – at the same time for free!

Salisbury University & Worcester County Public Schools

Why should I consider dual enrollment?

- Earn college credit while earning high school credit!
- Save money! Students can take up to 4 courses a semester for free! The tuition and required course materials are paid for by WCPS.
- Level 4, weighted courses look great on your transcript.
- Transfer the credits you've earned to any other university.
- Learn the time-management skills, study skills and discipline you'll need to succeed in college.
- Improve your chance of qualifying for scholarships or awards.
- Free up time in college for you to study abroad or double major.
- Graduate from college early, saving you money and giving you a jump start on your career.

What are the dual enrollment eligibility requirements?

- Any WCPS full-time student who has completed at least 16 high school graduation credits
- Have an overall weighted grade point average of at least 2.75
- Prerequisite coursework may be required for some courses

How much does dual enrollment cost?

- All tuition costs and required course materials are absolutely free to students, for up to 4 courses.
- Students may receive permission from their school principal to take an additional course at no cost. Courses offered in non-regular semesters, including summer and winter courses, may be taken at regular in-state tuition rates.

Questions? Contact Shannon James for more information:
smjames@salisbury.edu

How do I apply and register?

Contact your high school guidance counselor for the Worcester County High School Application for Dual Enrollment (see below).

For submission deadlines, check salisbury.edu/dual-enrollment

The packet includes:

- Dual Enrollment Certification Form (signed by school dual enrollment contact)
- SU's High School Students Application for Concurrent Enrollment Form
- Non-degree Registration Form
- Maryland Residency Form

What classes should I take?

The choice of courses is completely up to you (and your guidance counselor)! But, since you will be headed to college soon, we have suggestions!

All universities have common course requirements that every student must take. At a minimum, most require students to complete courses in English composition, mathematics, lab science, and two semesters of a foreign language. The dual enrollment courses approved by Worcester County for high school graduation credit are optimized to help students accomplish these requirements early, while still earning your high school diploma. Check out our website for more information: salisbury.edu/dual-enrollment
