

The General Education Oversight Committee shall either update the existing General Education Workload Model or create a new model predicting the necessary course offerings under the new general education model, incorporating into their considerations the current student body composition and which courses have been approved and proposed in each area of the new general education model. The purpose of this projection is to allow departments to plan the number of sections of general education courses which they will need to offer in Fall 2024. This report is due to the Faculty Senate by the last meeting of October 2023.
