The previous version of this document reported on compliance initiatives as of January 27, 2015.
I. Title IX Compliance Oversight

A. President Janet Dudley-Eshbach approved the creation of the Office of Institutional Equity: Fair Practices, Diversity and Inclusion (OIE) in late November 2013. The OIE supports the University in its compliance and enforcement efforts by serving as an integral resource for Title IX issues. A strategic master plan for the OIE was developed, and it was formally launched in March 2014. The reporting structure was changed to the President’s Office on April 1, 2014.

B. The OIE is headed by the Vice President of Institutional Equity, Humberto Aristizábal, who has been designated Title IX Coordinator by President Dudley-Eshbach.

C. The University appointed a new General Counsel, Susan Griesser, who works closely with the OIE to review its procedures and policies for legal sufficiency.

D. The following positions were added to the OIE to support the University’s compliance efforts: a Complaint Resolution and Compliance Specialist, a Fair Practices Coordinator, and a Diversity and Inclusion Specialist. Additionally, a second Fair Practices Coordinator position has been approved on a full-time, contingent basis, and a search is underway.

E. Salisbury University’s Title IX Coordinator was appointed to the workgroup convened by the Office of the Attorney General and University System of Maryland (USM) to work on sharing of best practices in procedures and training elements. The workgroup met on July 30 and October 9, 2014.

II. Notice of Nondiscrimination

A. The University developed and published its “Title IX Statement,” a notice of nondiscrimination. The notice was reviewed for legal sufficiency by the General Counsel and the Office of the Maryland Attorney General, and is compliant with the provisions set forth in the USM Policy on Sexual Misconduct.

B. The notice is widely available to all campus constituents. It is prominently displayed on the University website and throughout campus, including administrative offices, common areas in academic and nonacademic buildings and residence halls, and distributed electronically to campus community members.

III. Prompt Investigation and Resolution

A. Investigations of complaints of Sexual Misconduct, whether involving faculty, staff or students, are conducted by the trained OIE staff. The comprehensive investigation is conducted in a fair and equitable manner. Findings are based on the preponderance of evidence standard. Action taken seeks to eliminate the Sexual Misconduct, prevent its recurrence and address its effects.

B. Notice of the outcome of the investigation or any changes to the outcome are disseminated to the parties concurrently, in writing, after a legal sufficiency review.

IV. Policy and Procedures

A. In compliance with the USM Policy on Sexual Misconduct, and after discussions with various campus constituents, the University revised the following policy and procedures:

It now features comprehensive access to information regarding diversity and inclusion in the Salisbury University campus, including information on Sexual Misconduct and other forms of discrimination.

B. As part of its extensive website redesign, the OIE has created a “Document Library,” available at www.salisbury.edu/equity/library, where relevant policies and procedures, forms, statements, notices, etc., are easily accessible to the campus community and the public.

C. The OIE and other campus stakeholders are presently in the initial stages of planning a Campus Climate Survey targeting students, faculty and staff, which would include questions regarding diversity and inclusion topics, including those related to campus sexual violence. The campus climate survey will be conducted during the spring 2016 term.
