A Message from the President

I am so grateful to have completed my first full year here at Salisbury University. As President, I am afforded the incredible opportunity to attend and experience so many of our University’s great events and programs.

Throughout the previous academic year, I was able to enjoy many of the cultural programs that were found in the pages of the fall and spring editions of Panorama. It is my sincere hope that I will be able to attend even more of our programs this fall and spring. In particular, I am looking forward to attending the Biannual Senior Art Show. There’s nothing I enjoy more than witnessing the work of our talented students on display for everyone to see and experience. Our student artists have repeatedly amazed me, and I can’t wait to see what our seniors have in store this year!

I am also beyond excited to see the return of two unique residencies this fall: the American Spiritual Ensemble and the powerful collaboration they will create with the Salisbury Symphony Orchestra and the Salisbury Pops Orchestra, and the teachings of 11 Tibetan monks from the Drepung Loseling Institute who bring blessings from the Dalai Lama himself. I am overjoyed that our University is able to present such a diverse and rich collection of programs for our community to enjoy.

It is my great hope that the pages of events and programs throughout this publication excite you the way they excite me. At SU, we are proud of the many connections we create for our campus and community. It is a true pleasure of mine to present the SU community with the fall 2023 edition of Panorama.

Dr. Carolyn R. Lepre
President, Salisbury University

Asia – A Continent of Inspiration Series

This fall, Salisbury University showcases its cultural programming theme of Asia – A Continent of Inspiration to focus on the largest continent in the world in terms of both land (one-third of the Earth’s landmass) and population (4.7 billion people in 48 countries). As SU launches its revitalized academic Asian Studies Program, we embrace the theme of Asian inspiration. We highlight the cultures associated with the countries of Asia, the diverse people in and from Asia, and the rich history and contemporary contributions of Asia. We also recognize and celebrate wider influences of Asian origin in many of our regular offerings in the visual and performing arts, humanities lectures, and social science events. With a theme this encompassing and significant, we will continue through spring. Look for events labeled with the Asia – A Continent of Inspiration Event Series icon throughout Panorama.

is at a crossroads.
Increasingly, it appears

the East. In the East,
meanwhile, the Silk Road
is rising again – networks
and connections are quietly appearing across the spine of Asia.
For millennia, the Silk Road facilitated the exchange of peoples,

the Pacific Ocean and the Mediterranean. Is the world’s center
of gravity shifting back to a region that once dominated the
intellectual, cultural and economic landscape? Explore the rich
history of the Silk Road and contemplate together its future
with Emin Lelić, associate professor of history, and Hong Yao,
professor of economics and finance.

Teaching Afghan Girls 21st Century Skills: Engineering, Robotics & Coding

Monday, October 2
Holloway Hall, Great Hall, 7 p.m.

Afghan girls above seventh grade are denied their education and this not only harms mobility and independence of women but stagnates the development of Afghanistan. Roderic Brame is intent on addressing this issue. It all began when one of his former students from 20 years ago, Habiba Jan, called and asked if he could help the girls in Afghanistan learn modern technologies. He did not hesitate and said “Yes!,” and so this unusual journey began with a course on 21st Century Technologies. Brame, and his team of volunteers, started with 12 students, of which nine remained, and of those, eight became teaching assistants for the next cohort of 20. The second cohort finished with 18 of which eight more became TAs. The project quickly began to build momentum. With the 16 TAs, the third cohort consisted of 50 students. Then the fourth cohort added a second level course, Advanced 21st Century Skills, with 40 students. By spring 2023, one year after starting this journey, 76 have earned professional certificates, four are also teaching and have taught another 200 girls. In addition, all the girls have taught at least two other girls how to code a digital video game. With outside help, the project is starting to become self-perpetuating. The Afghan Girls Project has already reached over 500 girls and will dramatically expand in the second year. To help expand the program’s reach, Brame is now leading an international task force with the Council of Global Relations to educate Afghan girls on expertise in technologies for the 21st century.

Healing the Earth: A Sacred Art by the Tibetan Lamas of Drepung Loseling Monastery
November 1-5
Holloway Hall, Great Hall
For the eighth time, 11 Tibetan monks from the famed Drepung Loseling Institute, with blessings from His Holiness the Dalai Lama, are in residence at SU.
Sponsored by the Office of Cultural Affairs and University Dining Services.

The Mystical Arts of Tibet: Mandala Sand Painting
Wednesday • Noon
- Opening Ceremony
  The monks begin by consecrating the site of the mandala sand painting with approximately 30 minutes of chants, music and mantra recitation.
- Drawing of the Lines
  Immediately following the opening ceremony, the monks start drawing the line design for the mandala. This is very exacting work that takes about three hours to complete. Construction begins immediately following drawing of the lines.

Mandala Construction
Wednesday • Noon-7 p.m., Thursday-Saturday • 10 a.m.-7 p.m. & Sunday • 10 a.m.-Noon
Following the drawing of the lines, the monks lay on the colored sands, which is affected by pouring the sand from traditional metal funnels called chak-purs. Each monk holds a chak-pur in one hand, while running a metal rod on its grated surface; the vibration causes the sands to flow like liquid. The finished mandala is approximately 5 feet by 5 feet.

- Completed Mandala Viewing
  Sunday • Noon
- Consecration & Closing Ceremony
  Sunday • 2 p.m.
  The monks dismantle the mandala, sweeping up the colored sands to symbolize the impermanence of all that exists. Half of the sand is distributed to the audience as blessings for personal health and healing.
  Sunday • Immediately Following the Closing Ceremony
  Salisbury City Park Dispersal Ceremony
  The remaining sand is carried in a procession by the monks, accompanied by guests, to a flowing body of water, where it is ceremonially poured to disperse the healing energies.

ASSOCIATED LECTURES
Holloway Hall, Great Hall, 7 p.m.
Lectures are approximately one hour in length and followed by a question/answer period.

The Meaning of the Mandala
Wednesday, November 1
The Mandala is a sacred cosmogram used as an object of contemplation. It depicts the pure nature of the world in which we live as well as how we can live most effectively. By creating a sand Mandala, we bring the creative energy of that sacred dimension into our lives and attune ourselves to this natural perfection.

Meditation for Focus & Stress Relief Lecture
Friday, November 3
Meditation is an important technique for quieting the mind and establishing an inner basis of clarity and well-being. It allows us to relax from within the core of our spirit, and better understand the processes that make up our life. Some meditative techniques aim at strengthening inner qualities that are important life forces; others aim at eliminating inner negativities and habitual patterns.
Trio Con Brio Copenhagen

Tuesday, October 17
Holloway Hall, Great Hall, 7 p.m.

Acknowledged as one of the finest piano trios in the world. The trio was born out of an idea of the coming together of “musical pairs” – of the two Korean-born sisters Soo-Kyung Hong (cello) and Soo-Jin Hong (violin) with Soo-Kyung and her husband, Danish pianist Jens Elvekjaer. Winning almost all of the major competitions for piano trio – including the ARD (Munich), Vittorio Gui (Florence), Trondheim Competition (Norway), Kalichstein-Laredo-Robinson (U.S.), Allianz Prize (Germany) and the prestigious P2 Artists Prize (Denmark) – they are regularly heard at the world’s leading venues and concert series, including Carnegie Hall, Lincoln Center, Wigmore Hall, Berlin Pierre Boulez-Saal, Concertgebouw, ElphiHarmonie Hamburg, Seoul Arts Center, Louvre Paris and of course their beloved “home venues,” the Royal Library and the Tivoli Concert Hall in Copenhagen.

The Tallis Scholars

Wednesday, December 6
Holloway Hall Auditorium, 7 p.m.

Celebrating their 50th anniversary this season, the peerless Tallis Scholars have done more than any other group to establish sacred vocal music of the Renaissance as one of the great repertoires of Western classical music. Directed by Peter Phillips, the Tallis Scholars are master performers of sacred Renaissance choral music, winning both the Recording of the Year and the Choral Award in BBC Music Magazine last year, and taking home the 2021 Gramophone Classical Music Award in Early Music. They have sought to bring Renaissance works to a wider audience in churches, cathedrals and venues including the Royal Albert Hall, the Sistine Chapel, the Lincoln Center and Carnegie Hall New York, the Philharmonic Hall Berlin, Saint Mark’s Venice, Seoul Arts Center Korea, Shakespeare’s Globe Theatre London, Concertgebouw Amsterdam, Wigmore Hall, Beijing Concert Hall, Megaron Athens and the Sydney Opera House.

**After Life**
**Wednesday, September 6**
**Directed by Hirokazu Kore-eda, Japan, 1998**
**Not Rated.**

If you could choose only one memory to hold on to for eternity, what would it be? That’s the question at the heart of this bittersweet fantasia in which the recently deceased find themselves in a limbo realm where they must select a single cherished moment from their life to be recreated on film for them to take into the next world. Influenced by interviews with hundreds of Japanese citizens, *After Life* is a panoramic vision of the human experience – its ephemeral joys and lingering regrets – and a quietly profound meditation on memory, our interconnectedness and the amberlike power of cinema to freeze time.

---

**Joint Security Area**
**Wednesday, October 4**
**Directed by Park Chan-wook, South Korea, 2021**
**Not Rated.**

Before *Oldboy* and *Decision to Leave*, Chan-wook directed this gripping tale of deceit, misunderstanding and the senselessness of war. Gunfire breaks out in the demilitarized zone between North and South Korea, leaving two North Korean soldiers dead while a wounded South Korean soldier flees to safety. With the tenuous peace between the two warring nations on a knife-edge, a neutral team of investigators is dispatched to question both sides to determine what really happened under cover of darkness out in no-man’s-land.

**The Long Walk**
**Wednesday, November 1**
**Directed by Mattie Do, Laos, 2019 • Not Rated.**

In rural Laos in a not very distant future, a grizzled elder makes his regular trek into a village looking to sell the discarded tech he finds in his foraging. He does, though, have a companion in his travels – the ghost of a young woman whose death he witnessed. The spectral follower allows the old man stunning insights into his past in what director Do calls her, “quiet, supernatural science-fiction, time traveling, serial killer, Asian arthouse film.”

The documentary, like Snær Magnason’s other work, raises the questions as to how much unspoiled nature we should preserve and whether natural beauty is worth sacrificing in the pursuit of renewable energy.

- Lecture
  Tuesday, October 24
  Holloway Hall, Great Hall, 7 p.m.
  Internationally acclaimed, award-winning author and activist Snær Magnason addresses climate change issues in a lecture based upon his latest work, On Time and Water, an amalgam of myth, memoir and science. The works of this Icelandic poet, novelist and documentary filmmaker have been translated into 30 languages and published in over 40 countries. They include children’s and young adult fiction like Story of the Blue Planet and Casket of Time; science fiction, LoveStar; and documentaries, Dreamland and Third Pole. Snær Magnason is an avid and ardent proponent of the responsible stewardship of the Earth’s resources and especially of the Arctic; his works seek to unravel the cultural meaning and costs of man-made environmental degradation through his innovative narrative style.

Bryan Russo
(Delmarva Public Media)
September 8
Russo is a multi-award-winning singer/songwriter, journalist and composer. He’s the current director of production and operations at Delmarva Public Media and he’s that rare type of performer who has charged into hurricanes, won Edward R. Murrow Awards and shared the stage with more than 30 national recording artists. He’s released six critically acclaimed independent records (none of which have resulted in fortune or fame) that have been heard all over the world on radio, television and film. A music critic, who is now as likely to be out of the business as the publication he once wrote for, penned a review about the Berlin-based musician that said he was “the best songwriter nobody’s ever heard of.” And while Russo is unsure whether or not that’s a compliment or a dig, he’d like to encourage you to come to a show and listen for yourself. For more, visit bryanrusso.com.

Chris English (Music)
November 10
To create the Delta-style blues for which he is known, English uses vintage guitars from the 1930s to replicate the sound and feeling that he has studied and loves. He puts that sound to good use in his class Blues: the Roots of Rock and Roll, which he created and teaches at SU.

Drawn in Paris: Street Art & Gentrification in the City of Lights

Wednesday, November 8
Conway Hall 152, 6 p.m.

Carole Salmon, professor of French and linguistics in Furman University’s Modern Languages and Literatures Department, takes the audience on a virtual guided tour of various Parisian neighborhoods to discover the work of some preeminent French street artists, including Miss Tic, Space Invader, Intra Larue and Seth. Salmon looks back on the long-standing graffiti tradition to shed some light on today’s techniques and practices as seen on the walls of the French capital. She also reflects on the newly socioeconomic stakes of street art. Now becoming a lucrative touristic attraction, it has recently contributed to furthering Paris’ gentrification. As such, the illegal practice of writing on the city’s walls is ironically turning into a tool of oppression affecting the vulnerable people who once used it to get their voices heard.

E. Pauline Riall Lecture Series
Featuring William Martinez
Thursday, November 9
Holloway Hall Auditorium, 7 p.m.

Through American Sign Language (ASL) paired with singing, SIGNing the Song: Power of Belonging shares the true story of a boy who grew up in a deaf household with little exposure to TV, radio or movies. Because of his incredible eighth-grade music teacher, Mrs. Norma Freeman, Martinez came out of his silent world and discovered his voice through music. ASL and song lyrics meld together into a beautifully unique art form. This presentation is a heartwarming celebration of the incredible impact teachers have on each child’s life … regardless of their struggles. In the past seven years, Martinez has spoken for state, regional and national conferences as well as visited countless school districts … all to inspire thousands of teachers to remember the incredible impact they have on their student’s lives. All educators are rockstars!
