

Student Health Services

In accordance with Governor Hogan's directive regarding elevated state precautions against the spread of the novel coronavirus (COVID-19) in Maryland, Student Health Services will modify operations. Beginning on March 16, 2020, the staff will primarily work remotely. Student Health Services will remain open on Monday - Friday from 8:30am – 4:30pm to answer phone calls, refill medications, and triage patients as needed. If you would like to speak with a Health Center clinician, call 410-543-6262 or email us at studenthealth@salisbury.edu. Please include your name, student ID number and a phone number. Do not include any personal health information. A provider will contact you as soon as possible Monday through Friday, from 8 am to 4:30 pm.

If you are experiencing a health emergency, please call 911, or proceed to your nearest emergency department.

Salisbury University's [Student Health Services](#) (SHS) is not currently accepting walk-in or in-person appointments, but continues to provide telehealth appointments, as appropriate, for students via Zoom.

No COVID-19 tests will be administered through SHS. Those demonstrating symptoms should call their primary care physicians or local hospitals and follow their instructions.

SHS is in communication with local county and state health officials and will share any additional information on this webpage as it becomes available
