

# Health & Human Services Majors

If you want a career helping people – either with their health or circumstances – consider the College of Health and Human Services. Its professional faculty and community connections provide you the in-depth and hands-on education you need to make a difference.

## MAJORS

- Community Health
- Exercise Science
  - Allied Health Track
- Medical Laboratory Science
- Nursing
- Respiratory Therapy
- Social Work

## COLLEGE HIGHLIGHTS

### ■ Prepared for Practice:

The nursing program consistently has among the highest pass rates on the national licensure exam, and the social work program is fully accredited by the Council of Social Work Education, a must for earning licensure.

SU is an Equal Opportunity/AA/Title IX university and provides reasonable accommodation given sufficient notice to the University office or staff sponsoring the event or program.

- **National Leader:** The respiratory therapy program graduates the largest number of undergraduates in the country.
- **In-Demand Graduates:** In a recent study, more than 90 percent of health-care majors secured jobs in their field within six months of graduation.
- **Learn by Doing:** At the Medical Simulation Center, you can practice what you've learned – with robotic patients and trained actors – before you help real patients in critical life situations
