

Requirements for Admission

Elementary Education at the Eastern Shore Higher Education Center

Congratulations on your admission to Salisbury University's Elementary Education Cohort at our satellite location, the Eastern Shore Higher Education Center (ESHEC), which is located on the campus of Chesapeake College.

To help you make tomorrow yours at SU, we host an orientation for all education transfer students at the ESHEC in August. You will be contacted over the summer with the actual date and time.

The orientation will provide you with the opportunity to learn what is required in the Bachelor of Science in the Elementary Education Program. You will receive information about clinical practice, meet your faculty and academic advisors, have your photo taken for your Gull Card student ID, as well as get to know other students new to the elementary education program. In addition, the orientation will provide you with pertinent information regarding clinical field placements, the Writing Center, Library Literacy and the Canvas platform. Finally, there will be a question-and-answer session. We hope to answer all of your questions during this informative event to get your Salisbury University academic program off to an excellent start!

In the meantime, if you have any questions, please contact Ms. Corbett Adkins, administrative assistant for the Elementary Education Cohort Program, via email at cladkins@salisbury.edu or via phone at 410-546-4313.

We look forward to you joining the flock!
