

Requirements for Admissions for Salisbury University Exercise Science Program at The Universities at Shady Grove

To help you make tomorrow yours at SU, we share with you the two-step process you need follow to apply to and be considered for acceptance into our Exercise Science (EXSC) Program:

- You've already completed the first step: being officially admitted to SU!
- Second, you must complete the approval/admission process to enter the EXSC Program at The Universities at Shady Grove (USG), outlined below. Please note, admission to the University does not guarantee acceptance to the EXSC Program.

To be considered for admission to the EXSC Program, current and prospective students must fulfill the following requirements:

- All transcripts from all previous academic institutions attended must be on file in the Office of Admissions.
- Ordinarily, you must have completed all Salisbury University General Education requirements.
- Prior to the fall semester in which you plan to begin the upper-division coursework, you must successfully complete or have a plan to complete all EXSC Program prerequisite coursework with no grade lower than a C, which includes: BIOL 215, BIOL 216, EXSC 213, EXSC 240, EXSC 250 and EXSC 305.

Students are eligible to enter the EXSC Program at USG upon completion of the admission requirements and approval of the EXSC site coordinator at USG (see contact information below).

After careful review of their transcripts, all applicants will receive notification in writing of their status (accepted or declined) by **May 15** of each year. *Notification will be mailed by May 15 if the student applies by March 1.*

For more information, please contact:

Abby Gibson, M.S., ACSM-RCEP

Site Coordinator, Exercise Science Program at Shady Grove
