Centennial Alumni Spotlight

Juliana Herscher '99

How did Salisbury prepare you to lead in the classroom—and beyond?

Salisbury University truly is far above the rest in the education field. The professors were experts in their subject areas and genuinely invested in their students. I especially loved working with local schools through internships and volunteer opportunities. The community was committed to helping build the teaching profession. The knowledge I gained from SU's professors helped set me apart in my career and gave me the confidence to thrive. I'm now a National Board Certified Teacher in Early and Middle Childhood Literacy; Reading-Language Arts, and I support other educators in pursuing certification through Charles County's National Board Academy. I've taught for 26 years, and I truly credit Salisbury with laying the foundation for all I've accomplished.
