The Honors College is designed to bring together high-achieving students and dedicated faculty in a small university environment. We offer motivated students who are serious about their intellectual growth a variety of special enhanced classes. We foster close individual contact between students and faculty and bring together talented students from across campus. Honors courses and extracurricular activities are intended to enrich and complement other educational opportunities and programs available to Salisbury University students.

Whatever your major or area of concentration at SU, the Honors experience can enhance the value of your degree. Graduating with Honors demonstrates to employers and graduate programs that you’re the type of person who welcomes challenges and exceeds expectations. Completing the necessary coursework for Honors requires sustained effort across many semesters, and the capstone (or thesis) project shows your ability to work independently at a high level. That kind of determination and self-motivation is attractive to recruiters in virtually every field, giving you a competitive edge in the professional world or in applying to graduate programs nationwide.
Students are required to complete:

- 120 credit hours of coursework with a cumulative GPA of 2.0 or higher. Some majors require more than 120 hours, usually to meet accreditation standards. See your department for details.

- 45 credits must be in General Education courses, of which you’ll need: Composition & Literature (2 courses), History (2 courses), Humanities & Social Sciences (3 courses), Natural Science, Math, Computer Science (4 courses) and Health Fitness (1 course).

- Incoming freshman and transfer students are automatically pre-registered for the first semester of classes. After completing the first semester, students will register themselves for classes on GullNet. See page below for step-by-step directions on registering for your second semester of classes.

- Each incoming student is assigned an academic advisor. Once a semester, during program planning, students meet with their advisor to plan courses for the following semester.

Living On Campus

Living on campus and becoming a resident assistant have been among the best decisions I have ever made. It has allowed me to not only become a part of a community but also to build one myself. – DeJa Lewis

Living on campus, from Wicomico to Sea Gull Square, has provided me with an opportunity for personal growth, to learn the University as a campus, develop lasting friendships and have easy access to on-campus resources such as the Guerrieri Student Union (GSU), the Guerrieri Academic Commons (GAC) and the other various academic school buildings, which ensured my success here.
