Whatever your major or area of concentration at SU, the honors experience can enhance the value of your degree. Graduating with honors demonstrates to employers and graduate programs that you’re the type of person who welcomes challenges and exceeds expectations. Completing the necessary coursework for honors requires sustained effort across many semesters, and the capstone (or thesis) project shows your ability to work independently at a high level. Living on campus and becoming a resident assistant have been among the best decisions I have ever made. It has allowed me to not only become a part of a community but also to build one myself. It is convenient for me by providing easy access to numerous student resources and so I can become involved in a variety of campus-wide events and activities.

— DeJa Lewis

Living on campus, from Wicomico to Sea Gull Square, has provided me with an opportunity for personal growth, to learn the University as a campus, develop lasting friendships and have easy access to on-campus resources such as the Guerrieri Student Union (GSU), the Guerrieri Academic Commons (GAC) and the other various academic school buildings, which ensured my success here.
