PRACTICUM DESCRIPTION

In this section you are to describe your practicum project or internship. Describe what you hope to do, identify your practicum site, describe its function and its purpose. It might be helpful to consider how the project helps you and how you help the organization meet its goals.

CAREER DEVELOPMENT GOALS

These are goals that you have determined you wish to accomplish during your practicum. They are linked to your career goals and objectives, and are hopefully ones that were paramount in your mind when you began developing your practicum (i.e. the desire to become more proficient at mediation). This relates to what it is you want to get out of your experiential learning experience and how it relates to your career goals. List and explain how your site will enable you to reach your career development goals.

Career Development Goals:

A large, empty rectangular box with a thin black border, intended for the student to write their career development goals. The box is positioned below the introductory text and above the footer.

SITE SPECIFIC GOALS

These goals are unique to you while you work at your specific practicum site. These goals should be consistent with, and inspired by, your education and career goals (i.e. to observe mediations and eventually co-mediate). Keeping a journal of your experiences and *critical incidents* while working on your practicum is recommended.

Site Learning Goals:

A large, empty rectangular box with a thin black border, intended for the student to write their site learning goals. The box occupies most of the lower half of the page.

RESEARCH PAPER DESCRIPTION

With our MA CADR practicums you are given two options for your writing requirements. You can write one paper that includes reflections on your experience within a formal research project (15- 20 pages) or you can write two separate papers a reflections paper on the practicum/field experience (5-7 pages) and a research paper (10-15 pages).

Select the appropriate check box below that reflects your preferred option:

I plan to write one paper that includes both reflection and research

I plan to write separate reflection and research papers

I am not sure which option I prefer at this time

Use the space below to describe the topic of your research paper:
