- g. For “Payments,” if the employee wants biweekly payments, then the payment Start Date and End Date should be the same as the Activity Dates and the Contract Dates. This will auto populate based on the data entered in the “Activity Dates” entered. The biweekly payments will be automatically calculated—do NOT modify the payment schedule unless under specific guidance from HR.
- h. If the employee wants one lump sum payment at the end of the contract term, make the payment start date the same as the payment end date, which should be the end date of the contract. This end date must be in the future in order to pay out! A PAP will not pay out if the payment end date has passed once the approval process is completed.
